9. Click on 'Please select a bank account' where you will have two options - either:
- Choose a verified bank account that we have on record and click on 'Next'. If you're withdrawing to an account that we already hold on record, the withdrawal should take no more than four working days.
 - Add a new bank account by selecting 'Add or manage bank account'. A message will then appear which offers you a link, enabling you to navigate to your 'bank account hub' where you can add your bank details. Once added and verified you will return to this screen where you can select your newly verified account.

Please note, to set up a new account we will need to verify your account details. Firstly we run an automatic check, however if this is unsuccessful we will need you to upload proof of identity and bank account which will need to be reviewed which might take a few days.

10. Review the instruction and click 'Confirm' if you wish to proceed (click on 'Edit' to amend any details, or 'Cancel' to stop the process and return to the Account Summary).
11. You'll see a confirmation of your withdrawal request. As mentioned above, withdrawals to a bank account that we already have on record should take no more than four working days.
